1. Common Principles and Objectives

Multilateral cooperation is essential for 'making the world a safer and more peaceful place for the vast majority of the global population'. Flanders devotes great importance to the cooperation with multilateral organizations and strives for making this cooperation more focused, sustainable and predictable. UNRWA is mandated to provide assistance and protection to some 5.15 million registered Palestine refugees in Jordan, Lebanon, Syria, West Bank and the Gaza Strip to achieve their full potential in human development, pending a just and durable solution to their plight.

The concrete objective of this Partnership is to support the services of UNRWA, which encompass education, health care, relief and social services, camp infrastructure and improvement, microfinance and emergency assistance. The Programme Budget of UNRWA is funded almost entirely by voluntary contributions, including from UN Member States. UNRWA and Flanders conclude this agreement to reconfirm the relevance of a sustainable partnership and of predictable funding enabling UNRWA to continue providing services at a time when crises are growing throughout the Middle East.
