

PARTNERSHIP AGREEMENT

between

THE GOVERNMENT OF FLANDERS

and

**THE JOINT UNITED NATIONS PROGRAMME ON HIV/AIDS
(UNAIDS)**

2019-2020

1. Objectives

The concrete objective of this Partnership Agreement shall be to support the actions of UNAIDS which are aimed at reinforcing the multi-sectoral and integrated response to the HIV epidemic, especially in the following 8 selected countries of the Southern African Development Community (SADC). Botswana, Lesotho, Malawi, Mozambique, Namibia, South Africa, Swaziland and Zimbabwe. In this way Flanders acknowledges UNAIDS as a strategic partner to work towards ending the AIDS epidemic as a public health threat by 2030 within the framework of the Sustainable Development Goals

Flanders thus endorses the UNAIDS 2016–2021 Strategy adopted at the 37th meeting of the UNAIDS Programme Coordinating Board, and the United Nations Political Declaration on Ending AIDS adopted in June 2016 by the Member States at the United Nations General Assembly for the High-Level Meeting on Ending AIDS, and supports decision 7.23 taken at the 38th PCB meeting approving the 2016–2021 Unified Budget, Results and Accountability Framework (UBRAF) as well as the decision 6.8 taken at the 40th the Programme Coordinating Board (PCB) meeting approving the UNAIDS 2018–2019 budget and revised resource mobilization and allocation model. At the same time, Flanders would like its resources to be used specifically for implementing this strategy in the aforementioned 8 partner countries

More generally speaking, UNAIDS and the Government of Flanders want to conclude this new agreement to reconfirm the relevance of structural cooperation between them. In addition, the Government of Flanders wishes to reaffirm the UNAIDS as a unique UN Joint Programme for global, regional and national (1) leadership, advocacy and communication, (2) partnerships, mobilisation and innovation, (3) strategic information (4) coordination, convening and country implementation support, and 5) governance and mutual accountability.

2. Main principles

With the introduction of a Cooperation Declaration for the period 2006-2010, UNAIDS and the Government of Flanders have formalised, reinforced and consolidated their cooperation in various fields. Support was provided in particular for the development of innovative programming methods at the national and regional levels.

In 2010, this unique cooperation agreement was transformed into a fully-fledged *Partnership Agreement* in which UNAIDS and the Government of Flanders acknowledged their complementarity in the actions to fight HIV/AIDS in the context of Southern Africa, and further renewed for the period 2015-2018.

In 2018, UNAIDS Secretariat and the Government of Flanders wish to renew this Partnership Agreement, aiming principally at continuity in their cooperation. In this sense, on the basis of their respective institutional strength, the UNAIDS Secretariat and the Government of Flanders shall continue to.

- do everything possible to fast track the response to HIV and AIDS where it is most needed, such as in Eastern Europe and Central Asia where new infections are sharply rising, and in the 8 selected countries within the SADC region, where three out of four new infections among adolescents are among 15-19 year old young women, in order to contribute to the reduction of HIV incidence and AIDS-related deaths to levels that no longer represent a major public health threat to any population or country.
- consolidate the cooperation at the level of the headquarters/capital and region, but especially of the 8 selected countries,
- aim for increased ownership and sustained financing in the countries, for harmonisation, alignment, results management and mutual accountability, as specified in the Paris Declaration on Aid Effectiveness, the Accra Agenda for Action, the Busan Partnership for Effective Development Cooperation and the related global HIV initiatives; support the UN reform agenda, focusing on results management at global and regional level, and the joint implementation of the One UN Programme at the national level, through, *inter alia*, stimulating due cooperation, accountability and strategic alignment to the 2016-2021 UBRAF and its consecutive frameworks amongst the 11 cosponsoring organizations, ensure, through systematic monitoring and evaluation systems which they share with the other donors, that the operation of UNAIDS generates tangible results in keeping up with the agreed goals and indicators,
- share and further disseminate acquired insights to enhance the quality and effectiveness of the response to HIV at all levels.
